Education

- | | |
|---|----------------|
| • Swami Keshwanand Institute of Technology GPA - 7.8/10 | 2023 – Present |
| • Govt. Sr. Sec. School Bandikui (12th) - 94.20 % | 2022 |
| • Saraswati Vidhya Vihar School Bandikui(10th) -78.83 % | 2020 |

Experience

SummerInternship: *Kistenchosoftware* July2024–Aug2024

Developeda newswebsiteutilizingNewsAPItoretrieve and showcase real-time articles, complete withcategoryfilters and keyword search functionality. Crafted a sleek, responsive user interface using HTML, CSS, and JavaScript.

FullStackDeveloperInternship: *INOVIZEITSOLUTIONS* July2025-Sep2025

- Developed web applications using React.js and Tailwind CSS for frontend development
- Built Node.js and Express.js for backend functionality
- Gained hands-on experience in full stack development workflow

Project

FlowStock — B2B Inventory & Logistics SaaS Platform :-

Tech Stack: React.js, TypeScript, TailwindCSS, Node.js, Express.js, PostgreSQL, Supabase, Twilio, PDFKit

Deployed: Cloudflare Pages (Frontend) | Render.com (Backend)

- Developed a **multi-tenant B2B SaaS platform** for Indian wholesale and distribution businesses to manage inventory, orders, and deliveries under one platform
- Implemented **role-based authentication** — Google OAuth via Supabase for Admin/Customer and for Drivers
- Built **multi-tenancy architecture** with business_id scoping and middleware-based business context injection ensuring complete data isolation between businesses
- Integrated Twilio WhatsApp & SMS API for **real-time order status** notifications at every delivery stage.
- Developed **OTP-based delivery verification system** where a 6-digit OTP is sent to customer via WhatsApp and verified by driver at doorstep
- Implemented **PDF invoice generation** using PDFKit with business logo, line items, taxes, discounts and GST details
- Designed **inventory intelligence system** with automatic SMS alerts on 50% stock depletion and low stock threshold

Technical Skills

- **Languages:** C, C++, HTML5, CSS3, JavaScript, React, Express.js, Node.js.
- **Database/Tools:-** Git, GitHub, VS Code, Postman, PostgreSQL (Supabase)
- **Cloud & Deployment:-** Cloudflare Pages, Render.com
- **Integrations:** Twilio (WhatsApp & SMS), PDFKit, Google Maps API ,
- **Courses:** Data Structures and Algorithms, Object Oriented Programming, Database Management Systems
- **Machine Learning:** Linear/Logistic Regression, KNN, SVM, Decision Trees, Random Forest
- **Extracurricular:** Team Leadership, Project Management

Achievements

- **Top 25 Teams — AUTOwn'25, BITS Pilani Hyderabad Campus** (Feb 2026) Built an **Autonomous Drone** (using ArUco marker detection for autonomous stage completion)
- **Top 5** in National Level Hackathon (**Innovician Hackathon,2025**)
- **TOP 10** in the Software Category in **GIT HACKATHON 2024**.
